Características

PALLY PRO FEATURES

“ Pally is a URcap designed for flexible, smooth, and a quick to install solution.
Full automation of palletizing and a great flexibility to handle changes in production. The included intuitive pattern generator allows you to easily create the desired pallet layout.

In just one day, your palletizing project is up and running.

URCAP FEATURES

- ✓ Up to 10/20 products per min (single/double grip)
- ✓ 1 or 2 pallets
- ✓ Pallet size (EUR/US/custom size)
- ✓ Optimized path planning for longevity of robot
- ✓ Gripper of your choice
- ✓ Lifting column support
- ✓ Advanced setup option
- ✓ Setup guidelines, documentation
- ✓ Callbacks (insert your own UR-programs at certain events in Pally)

PATTERN GENERATOR FEATURES

- ✓ Generate patterns (pallet size EUR/US)
- ✓ Export patterns to robot
- ✓ Interlocking layers
- ✓ Shim paper support
- ✓ Label orientation (labels facing out)
- ✓ Different products/pallets

The intuitive web-based pattern generator allows you to easily create the desired pallet layout - as many as you like.

ONBOARDING PROGRAM

1. TRAINING

- Pally introduction via video conference
- Training videos
- Webinar training for new releases

2. SALES SUPPORT

- Marketing material
- Project simulations of customer scenarios

3. INSTALLATION SUPPORT

- Dedicated chat on Slack with the Pally team
- Support videos
- FAQ access

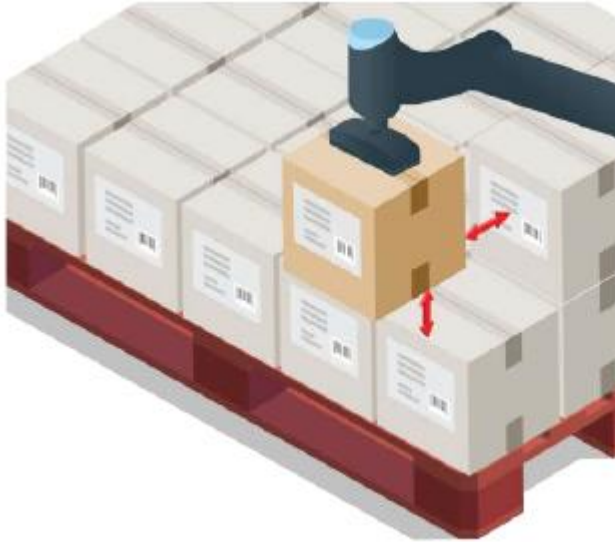

4. POST INSTALLATION

- Dedicated chat on Slack with the Pally team
- Email

Pally

Generador de Mosaicos

- Etiquetado hacia afuera

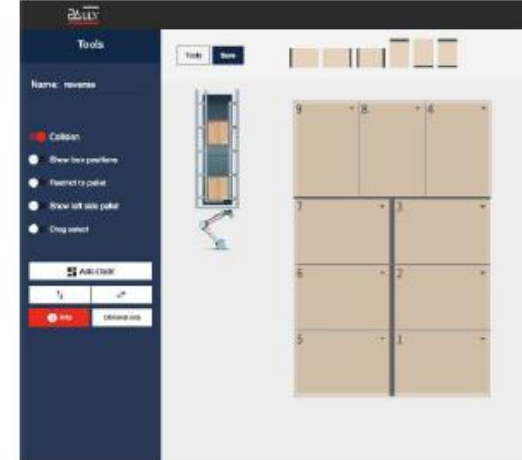

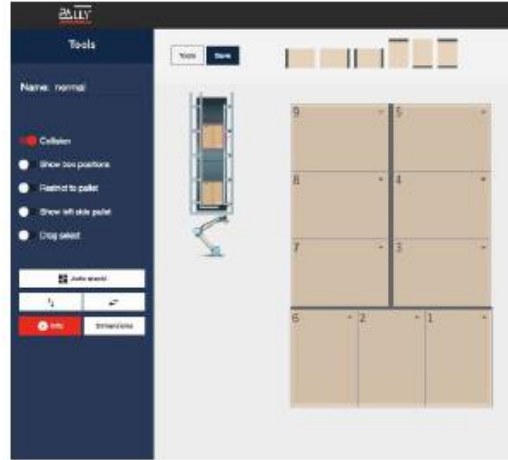

- Columna de Elevación

Generador de Mosaicos

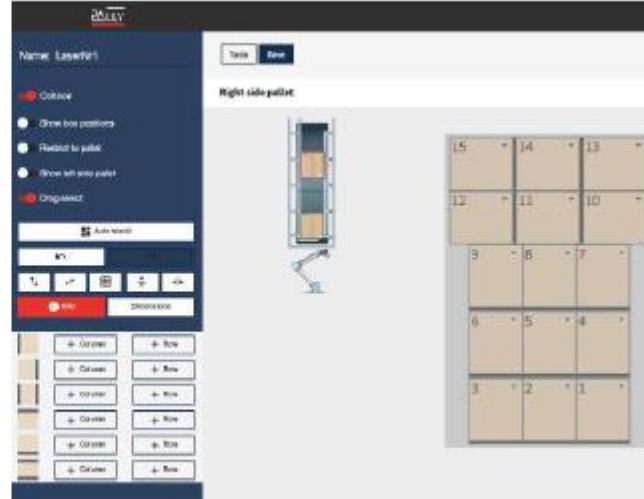

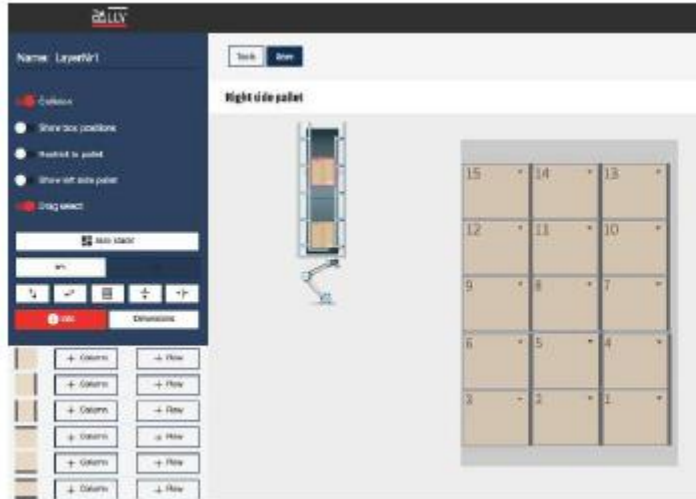

- Posibilidad de Interlayer

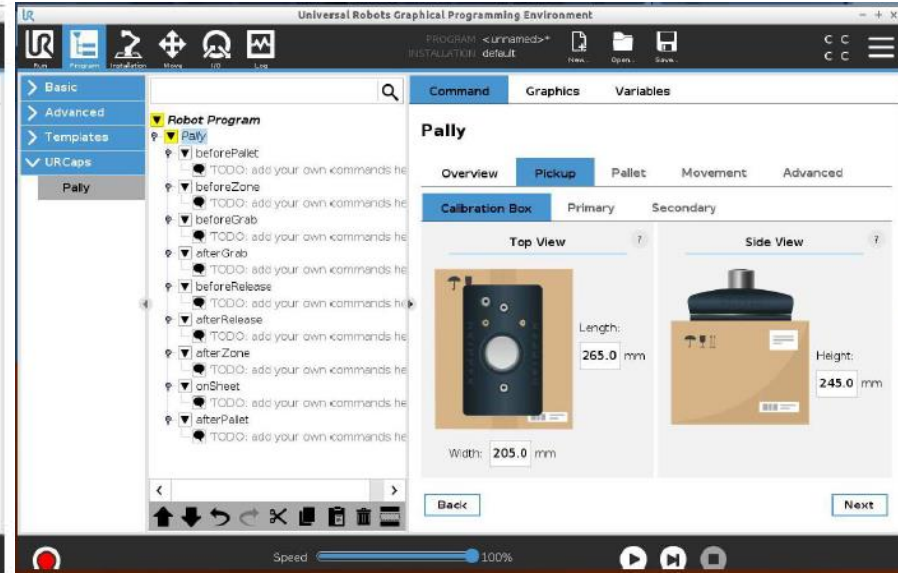

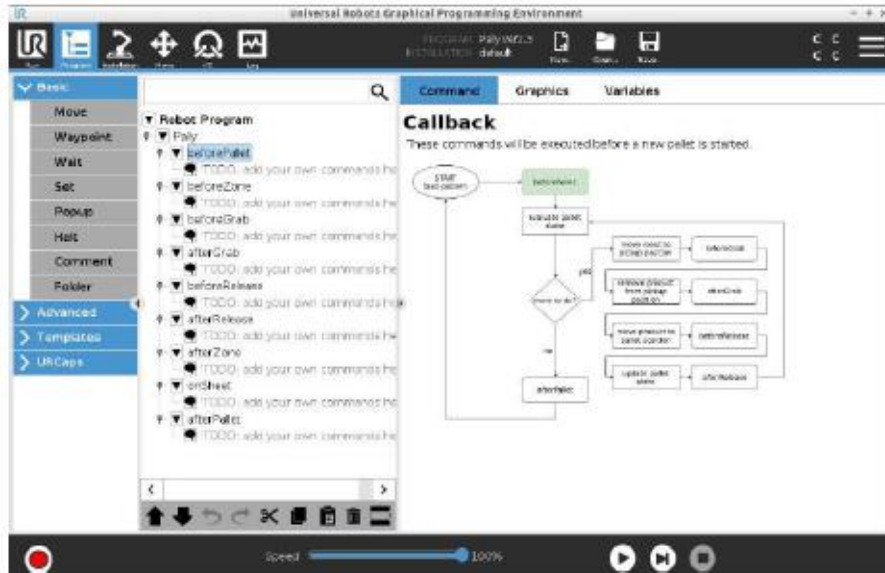

- Intercambio de Capas

Generador de Mosaicos

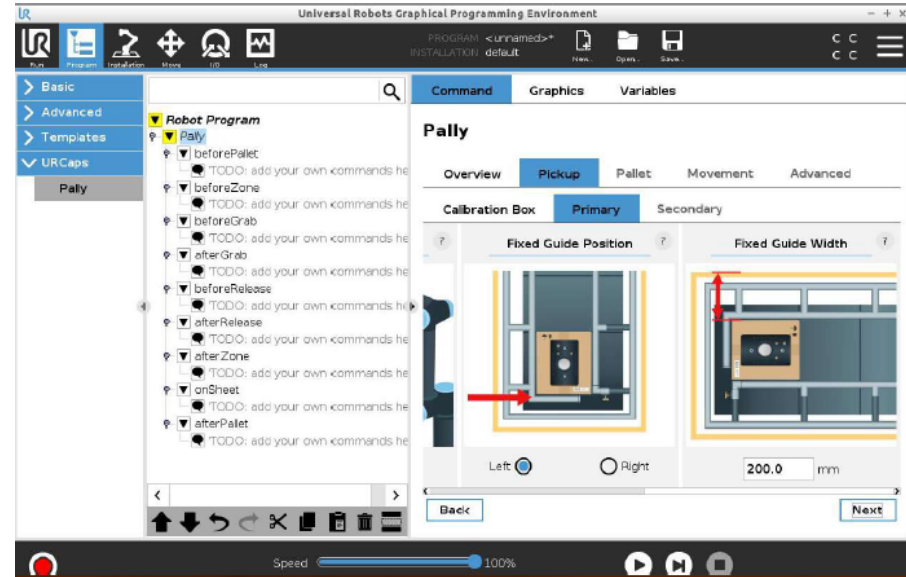

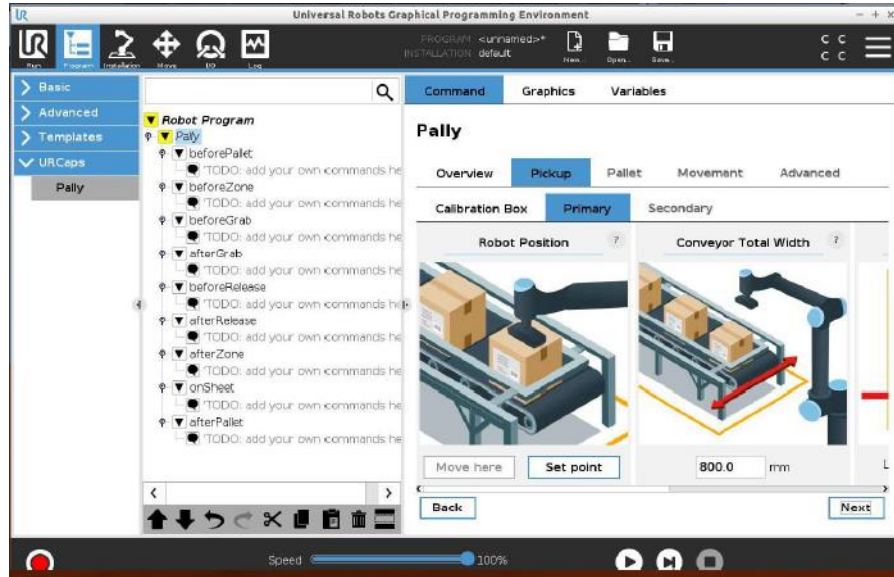

- Posibilidad de Cambios en Producción
